

The Hollywood Reporter and several other major outlets reveal that Iron Man and Iron Man 2 director Jon Favreau's next movie will be released on IMAX screens as well as conventional ones in the US later this month. (and throughout the rest of the world come August) This is bound to have an impact on the its box office takings, but will you be forking out a little more to check out Cowboys & Aliens in IMAX? DreamWorks Pictures and Paramount Pictures International are to release the sci-fi western Cowboys & Aliens internationally in Imax theaters day-and-date with each territory's rollout. "This release marks the continuation of the fantastic relationship we have with Imax and we are thrilled that fans will have the ability to experience it this way," Andrew Cripps, president of Paramount Pictures International, said in a statement. Directed by Jon Favreau and starring Daniel Craig, Harrison Ford and Olivia Wilde,
