

The first episode of FX's Legion was a breath of fresh air, taking a highly unique and very clever approach to its comic book source material. The conclusion of the pilot did begin to veer into more conventional superhero territory, however, as David was introduced to a team of (presumably) mutants and their leader, Melanie Bird (Jean Smart). In this clip from tonight's second installment, the "schizophrenic" Haller undergoes some tests, seemingly in an effort to determine the source of his incredible abilities. Be sure to tune in to Legion tonight at 10:00pm ET/PT on FX.
