Quint from over at Ain't It Cool News had the good fortune of speaking with Director David Fincher. One of the tidbits I found interesting about their conversation was when Quint took the opportunity to ask Fincher for information on The Goon film based on Eric Powell's Dark Horse Comic that we all seen the trailer for at Comic Con. One thing I wanted to touch on before we wrap this up is The Goon movie. Can you give me an update on that? Animation that isn't singing furry animals is hard. Especially something as outré as Eric Powell. And it's his script! (laughs) It's main-lined Eric Powell. We kind of went out with it at the end of the year and I don't know that a lot of people were paying attention, but hopefully someone will step in and want to (pick it up). I gotta hope there are more avenues for animation
