Game Director of DCUO Chris Cao takes us on an in depth tour of Bludhaven, with character and scene descriptions and secrets. Bludhaven is a city much like Gotham but it has a much more twisted past. A huge techno monster, Chemo was dropped on the city and he exploded, spreading pollution everywhere, contaminating the citizenry and mutating it horribly. In order to contain the spill, a huge force shield was put up and now, as heroes or villains, you've been sent into it. So let's take a look inside Bludhaven... You arrive below the shielding dome in Bludhaven, toxic nightmares all around, mutants struggling through the mess and it's your job to stop the mutations from going any further. Once you've saved some of the citizenry, now it's time to get some of the emergency supply drops that will help them further, so you can turn this city back into what it once
