

A new batch of episode descriptions for DC TV episodes from the week beginning January 30th have been revealed, and it looks like it's going to be a good one! Talia al Ghul is coming to Arrow along with a former cast member from The Walking Dead, while Gypsy will be making her presence felt in The Flash as we finally learn more about H.R.'s secret past (he's clearly not as clean cut as he's claimed). Over in Legends of Tomorrow, it sounds like The Legion of Doom will finally get the spotlight as the Reverse-Flash's machinations clearly start to backfire on the speedster. Finally, Supergirl sees the return of Livewire, though I'm assuming that mention of "Central City" is a typo! It has been confirmed that a version of that city exists on Kara's Earth, however, so it could be that we're heading there for a visit. Arrow Season 5, Episode 11 - "Second Chances"; TALIA AL GHUL TAKES OLIVER UNDER HER WING
