

The first two Marvel animes, Iron Man and Wolverine, were good starts. Iron Man at least anyway. I've been hearing some really positive things about the X-Men one, now that it has aired in the States also, I can say what I thought. The story follows the aftermath of the death of Jean Grey. The X-Men have disbanded. However, when a teenage girl is kidnapped, Professor Charles Xavier calls in the team once more. Sure, the Phoenix is probably the most overused plot point in the X-Men shows, though it's only used for the flashback, which is a good thing. The last X-Men show was the canceled Wolverine and the X-Men. After a season, the show didn't come back sadly. So we have to this for now. Of course, when Japan takes our characters, we can only hope for the best. They produced Iron Man, which kept the core concept well. Wolverine on
