

Ah, Spider-Man 3. It's been two years since I've last seen it, this would be my sixth time watching it. I was one of the few who came out of the theater satisfied, saw it on Blu-Ray, and loved it even more. I remember back in 2006 when it was the most hyped movie of the decade. Ah, the memories of me scouring the internet day in and day out searching for updates on it, coming to this site a lot in hopes of finding out new things about it. I remember seeing the first trailer and thinking "The Symbiote? That means.....VENOM!" My dream of a film. Spider-Man and Venom together on the big screen, that's what I was looking forward to. I kept searching "Spider-Man 3 Venom" in hopes of finding some info on what our favorite Symbiote would look like. I went through pages and pages of fan-art, it
