

During an interview in a newly released episode of Marvel's web series "The Watcher", a host of the 2012 Toy Fair might have accidentally revealed to us the identity of the secret alien army that Marvel have been keeping tightly under wraps for months. Skip to 3:50 in the video to hear it yourselves: According to the man, the name of Loki's alien race are the Ord. This may or may not have been a mistake by the person being interviewed here, but after looking into some background it is too much of a coincidence. The Ord were created by Joss Whedon during his Astonishing X-Men run. Here is some information on them from Marvel's Wiki: Ord hailed from the Breakworld, a planet home to a warrior culture whose technology allowed them to see partial versions of the future. These "timeshadows" foretold that their planet would be destroyed by a mutant from Earth, most
