

Talking to IGN Movies, Johnson has revealed some new information about Roadblock's role in G.I. Joe: Retaliation, letting slip plenty of interesting details about the character's relationship with Snake Eyes as well as his weaponry and fighting style. While 2009's G.I. Joe: Rise of the Cobra was a hit at the box office, it failed to strike a chord with fans and critics alike. Hopefully, the wrestler turned actor will be able to reignite the franchise as he did with last year's Fast Five. More G.I.
