

One of the most anticipated films of the summer is the final film in a powerhouse film franchise: Transformers: Dark of the Moon. The previous film, while it was a financial success, was panned by critics and fans alike. Most felt that the film tried too hard to be funny, with the addition of several useless and border-line racist characters. So, Michael Bay and company had a big hill to climb in order to redeem themselves and the franchise. Did they achieve that? Yeah, I think they did. While the film is not quite up to par with the first, it is by far and away better than the previous movie we were forced to stomach. The film isn't without it's faults however, as it is a Michael Bay movie, but I think it is a great closure to this franchise...at least for now. Having worked with the humans for the past
