

Over the past few generations, cartoons have most likely been the core of our childhood. Since you're visiting this site, the chances that you watched a Marvel or DC cartoon as a child are incredibly high. However, there are always a few cartoons that never get enough attention as they deserve or are overlooked because of their tone or style. In this editorial, I list six of those cartoons that need more praise. Ultimate Spider-Man I'll be starting off this list with an incredibly controversial choice. Ever since it's debut, Ultimate Spider-Man has seen quite the amount of hate for it's childish nature. However, does Ultimate Spider-Man really deserve getting tomatoes thrown at it? Nope. Not only does the show feature incredible animation, but it continues to improve over time. The action sequences are great and breathtaking. The show continues to impress not only with it's main voice cast, but it also features
