this week, I ranked each of the Marvel TV shows which have been released since the creation
of the Marvel Cinematic Universe. Warner Bros. obviously has a much longer history on the
small screen when it comes to their superheroes, but there are a total of eight currently on the
air which are based either on DC Comics properties or titles released through the company's
Vertigo imprint. It's a varied and diverse list of titles, but regardless of whether they're on
AMC, Fox, or The CW, not all of them are winners. Some are in fact
