When Marvel released a piece of artwork featuring Captain America wielding a gun during last years Comic Con, there was some concern amongst fans that the character would be based a little more on the Ultimate version rather than the classic 616 universe. Since then we've seen a stuntman with the holster as well as an action figure, but as the following photos show, Marvel are clearly using that leaked concept art from a while back on the upcoming products which will tie into the movie...you'll notice however that they've made one final adjustment to the suit as you'll see on Cap's right leg. Not Earth shattering to some of you I know, but this is the first time we've seen official pictures of his costume with the new addition of a holster and a belt/boots that are more red than brown. In my opinion, it's pretty damned cool. Captain Australia (who
