

My source has provided ComicBookMovie with the two new set photos and details about an explosive opening scene. My source has explained that this model is of a Japanese prisoner of war camp during World War II. This is all part of the opening scene that will feature an atomic bomb exploding! We saw a blurrier version of this model a few days ago (Link) alongside some concept art that also appears to show a massive explosion from an atomic bomb. This would indicate that The Wolverine will not only incorporate the Silver Samurai, but also another mutant villain, Lt. Ethan Warren. The character was featured in Brian K. Vaughan's mini-series, Wolverine: Logan. Lt. Ethan Warren - Was a POW with Wolverine in Japan during World War II. They teamed up to escape and found a Japanese woman in the woods. Warren wanted to kill her, but Logan threatens to kill him.
