

Sam Riegel has voiced many characters over the past couple of years but most animation fans probably know him as Donatello in 2003's Teenage Mutant Ninja Turtles and various TMNT video games afterwards. His most recently released project was being Peter Parker in the The Amazing Spider-Man video game. Below, he talks about what the experience was like to voice each of these characters and more. Animation fans know you for voicing Donatello in 2003's Teenage Mutant Ninja Turtles, how exciting was that project when you first got the gig? "Getting TMNT was life-changing. I grew up watching the original series, and Donatello was always my favorite turtle -- come on, he does machines! So to BE Donnie for a new generation of fans was incredibly rewarding. It's awesome to know that for kids who grew up watching our show, I'll always be their Don." Would you say that voicing Peter
