

You will notice that Han Solo is Renee Montoya. I guess they ran out of male characters. Hey, worked for Starbuck! Here are a few words from the creator of these colorful chaps, Dean Fraser "When I came up with this idea for mashing up Batman and Star Wars, I thought it would be a fun project, and it really was. To create these I used my own art, some templates, and the work of others and put it all together for Star Wars : Empire of the Bat." Above we have Darth Bat, Emperor Joker, Luke Nightwalker, Robin-2D2, C3P-Alfred, Obi-Wan Gordon, Rene Mon-Solo, Chew-Bullock, Princess Bat-Leia, Harley Yoda and Penguin the Hutt. Ya gotta love it!
