```

Putting together a best/worst of list for comic book films can be a tricky business. First off, there aren't usually that many "pure" comic book-based releases each year, and so it's necessary to draft in some movies that were covered on the site (like Warcraft, Ghostbusters etc) but aren't really considered CBMs. Even then, dividing them up into best and worst categories can be difficult because we're working from such a small pool of genre pictures. For instance, I actually enjoyed most of the movies on this "worst of" list to some degree, but simply didn't feel
