

I haven't been able to find this video on the site, so I thought I would post it for our CBM and video game fans. The Green Lantern: Rise of the Manhunters video game is making its way to almost every gaming platform known to man, and I found this video yesterday that highlights the Nintendo 3DS version of the game. While not as beefy as the next-gen consoles, the portable version looks like it could be quite fun... In Green Lantern: Rise of the Manhunters, players will fill the role of gifted pilot Hal Jordan, the first human Green Lantern, and create an arsenal of ring constructs and take flight in outer space and beyond to restore intergalactic order. Players will use the Power Ring to build an array of weapons from green energy to defeat the Manhunters – an evil android race bent on destroying the Green Lantern
