

The figure features 16 points of articulation, comes with Hawkeye's trademark bow and arrows, and a display base that connects with that of The Hulk's figure and the "Mystery Villain". What us geeks the world over wouldn't give for a look at that one eh? Anyway all three detailed bases are supposed to combine to recreate a scene from the movie. So I guess Hawkeye, Hulk and one of these alien..invader..type..things are involved in some type of scrap. Not exactly a revelation but there ya go.
