

Thanks to Trailer Track, we have the first synopsis for Arrival director Denis Villeneuve's Blade Runner 2049, which outlines the basic premise of the film. Up until now we had little to no idea about the story or any of the characters, but according to this breakdown the plot will revolve around Ryan Gosling's character "K", and his mission to track down original Replicant-hunter Rick Deckard (Harrison Ford). We had been told to expect the first trailer with Passengers, but speculation now points to it debuting online either today or tomorrow, so be sure to keep an eye out. Blade Runner 2049 also stars Ana de Armas, Sylvia Hoeks, Robin Wright, Mackenzie Davis, Carla Juri, Lennie James, Dave Bautista and Jared Leto, and is set for release on October 6, 2017.
