

Joker is a Slovenian monthly magazine that began as a computer gaming magazine and then expanded into reviews of books and movies. The magazine has seen Prometheus and will have a full review in the future, but til then they have decided to tease their faithful readers with a quick summary. We have seen Prometheus! It came to us at last, one of the most anticipated movies of the year, the notorious project of Ridley Scott, a prequel of Alien saga. Long story short, the film is dark, with strong message, has depth, but on the other hand affords way to many inconsistencies, which leave some bitter aftertaste. Monsters that form, develop and arise in less than half an hour and some other cheap tricks are elements, which belong more in stupid horror movies and not in a product, which deals with fundamental existential questions. Furthermore it leaves too many questions
