

Following Justice League Dark, DC will release an animated adaptation of Marv Wolfman and George Perez's Teen Titans: The Judas Contract. This is arguably the most popular Titans comic arc, and introduced Terra to the team. The story also featured the origin of Deathstroke, and was notable for Dick Grayson adopting the mantle of Nightwing for the first time. The movie will apparently serve as a follow-up of sorts to the recent Justice League vs. Teen Titans film. Below you'll find a teaser poster that gives us a look at the official logo. It doesn't reveal a whole lot, but then that's why they call it a teaser! Teen Titans: The Judas Contract is set for release in the spring of 2017.
