

We have had a read of the full breakdown for the pilot and we know that the series will see a young Bill Adama fighting the good fight in the first Cylon war, where he must escort a young woman who turns out to know some vitally important Cylon secrets. It will air on Syfy at some point but we have no set date yet. I'm a bit disappointed that everyone's favourite one eyed frakkin skin job Saul Tighe doesn't make an appearance since he and Adama were supposed to have been friends since back in the days of the first Cylon war. But maybe he will make an appearance as the series progresses. Anyway what's the verdict BSG fans? You liking the look of this so far?
