

While the majority of users here on CBM are fawning all over the new poster for The Avengers (find it [HERE](#)), I have to say I'm firmly in the thoroughly unimpressed camp. The proportions of the characters all look off and the way in which the actors are all awkwardly (and seemingly randomly) placed around the poster just makes it look like a complete and utter Photoshopped mess. Considering that the movie - now titled Avengers Assemble in the UK - is Marvel Studios' biggest yet, I really was hoping for something which would look impressive if put up on the wall. Hopefully they'll release something a little more like that before April, but for now, here are the five comic book covers which I think would have made for much better theatrical posters. NEW AVENGERS #1 (2005) This cover was used to launch a new team of Avengers after the team was
