

Well, that was certainly an eventful episode of Marvel's Agents of S.H.I.E.L.D... to say the least. Not only did we get a recap of the origin of Robbie Reyes and his fiery passenger, but it looks like Johnny Blaze made his MCU debut! Though this "Devil" isn't named, he's very clearly another Spirit of Vengeance, and how many of them have we seen ride a Harley? There were quite a few other surprises (though comic fans probably guessed Eli Morrow would show his true colors), but we're going to have to wait a few weeks to find out what happened after that somewhat shocking cliffhanger. In the meantime, check out a brief promo for the next episode below.
