

Here we have the teaser promo for the Winter finale of Fringe, after next weeks episode we won't see another until January 2012. When a man mysteriously dies by an invisible force, his body rapidly begins turning ghostly white. The Fringe team learns that this is not an isolated incident, and there's evidence that links the predator to someone who passed away with an unknown genetic disorder. Meanwhile, Olivia suffers from migraines. Share your thoughts on the season so far in the usual box.
