

When this trailer was announced many felt that it was a bit silly to release so much footage from the movie. But of course, you don't have to watch it. It is certainly a pretty hefty dose of the movie and although it doesn't give away any of the intricacies or plot twists it does spell out the story in fairly broad strokes. But it is also damn good, and should amp up anticipation even more for David Fincher's adaptation which also has a graphic novel in the works. Anyway, here it is, watch if you like.. You can get into the Christmas spirit when the "feel bad movie of the year" hits December, 26th. By TwitterButtons.com
