

X-Men: First Class charts the epic beginning of the X-Men saga, and reveals a secret history of famous global events. Before mutants had revealed themselves to the world, and before Charles Xavier and Erik Lensherr took the names Professor X and Magneto, they were two young men discovering their powers for the first time. In the process, a grave rift between them opened, which began the eternal war between Magneto's Brotherhood and Professor X's X-Men. And in other news, X-Men: First Class lost out to Harry Potter And The Deathly Hallows: Part 2 for "Must See Movie of the Summer", but the likes of Green Lantern and Captain America: The First Avenger weren't even nominated, so I'm not too worried about that!
