

Shame it's not in full HD quality, some of the finer details of the animation are hard to make out. But still, looks...ok? Like I have said before I was never a Tintin fan so I didn't really know what to expect. I guess they are going for a nice blend of comedy, mystery, old school boys-own adventure. Does it work for you? The Adventures of Tintin: The Secret of the Unicorn stars Jamie Bell, Simon Pegg, Nick Frost, Toby Jones, Andy Serkis, Mackenzie Crook, Tony Curran, Daniel Mays, Sebastian Roche and Gad Elmaleh and will premier in Brussels on October 22, before being released on the 26th in UK and Ireland. Then in the US much later on December 23rd. By TwitterButtons.com
