

Funko has kicked off their 2017 NYTF reveals with the first wave of Wonder Woman POP! vinyls, which includes Steve Trevor, Queen Hippolyta, and, of course, the DC heroine herself. The first POP! based on Gal Gadot's incarnation of Wondy debuted around the release of Batman V Superman: Dawn of Justice, but this version seems to sport a slightly brighter paint-job, as well as the character's iconic lasso. Just like with the first batch of Mattel action figures, we're probably going to have to wait a while before we get a look at the villainous Ares! Funko has promised plenty of other big reveals today, so keep an eye on CBM for updates.
