

Yesterday, I had the privilege of attending a special fan screening of The Avengers here in Los Angeles. I don't need to tell you that the room was packed to the brim, but what I must say is that you could literally feel the electricity in the air that was being generated by the excitement of the crowd. Never have I experienced something like that before. But no matter how excited we all were, nothing could have prepared us for what we were about to witness. Most of you are aware that the word "Epic" gets tossed around in every single article that has to do with this movie, right? Well let me tell you that "Epic" doesn't even begin to cut it. Think I'm exaggerating? Just ask any of our other fine members who have seen the movie as well. In this review, I will cover every aspect of this
