

Sick of Suicide Squad yet? Well, tough luck! More images from the divisive release continue to flood online thanks to photographer Clay Enos, and the latest features an amazing shot of Margot Robbie as Harley Quinn! The actress has been making headlines this week due to her recent wedding, but it was earlier this month we learned that she'll reteam with director David Ayer for Gotham City Sirens. **8 Female DC Comics Characters Most Likely To Join HARLEY QUINN In Her SUICIDE SQUAD Spinoff** Very little is known about what we should expect from that movie as of right now, but Harley will no doubt be front and centre even with big name characters like Catwoman and Poison Ivy showing up. Are you looking forward to seeing more of the character on the big screen or should Warner Bros. prioritise someone else? As always, be sure to let us know your thoughts in the comments section.
