

Funko has finally released some pics of their range of Guardians of the Galaxy Vol. 2 Pops, and there are some awesome new additions for collectors. If you've already purchased the first line of GOTG Pops then you may not want to pick up the likes of Star Lord, Drax, Gamora and Rocket again (though there are some great new variations of each), but also available for the first time are new baddie Taserface, Mantis, and a few different versions of the ever-adorable Baby Groot - including a super-sized 10" one, which may suggest he won't be staying tiny for the duration of the movie! The Pops will be available from February. In the meantime, you can check out some Guardians of the Galaxy Vol. 2 Plushies, Dorbz, and Rock Candies right [HERE](#).
