

Yes you read the teaser right. A nasty piece of work is Craster! When Jon Snow and the Nights Watch seek shelter with the Wildling traitor Craster they also encounter his many daughters whom he also keeps as his wives. Gilly is one who is actually pregnant with Craster's son. She is introduced as a fairly minor character early on but as her friendship with Samwell Tarly grows she becomes more important later on. Hannah Murray, 22, is best know for playing Cassie Ainsworth in the first season of the E4 teen drama series Skins. By
