

Earlier today, we got our first look at Hasbro's Vulture action figure from Spider-Man: Homecoming, and now thanks to Nerdist, the first Marvel Legends Guardians of the Galaxy Vol. 2 toys have been revealed! There's no sign of Baby Groot, but we do have Star-Lord, Drax, and new recruit Yondu. Joining them in this line are comic book characters like Angela, Vance Astro, Darkhawn, the young Nova, and each comes with a piece which will ultimately allow you to create massive space tiger Titus. Which of these action figures is your favourite? Let us know that in the comments section below. Starring Chris Pratt, Zoe Saldana, Dave Bautista, Bradley Cooper, Vin Diesel, Karen Gillan, Michael Rooker, Pom Klementieff, Elizabeth Debicki, and Kurt Russell, the movie will be released on May 5th.
