

Although the subtitle of the forthcoming Captain America sequel already alludes to the return of James Bucky Barnes, played by Sebastian Stan, a deleted scene from Marvel The Avengers also hinted at the return of another 40s-era ally of Steve Rogers. With that in mind, it's no surprise what the actress behind Peggy Carter, Hayley Atwell, had to offer when Bleeding Cool approached her at the premiere of her new film, The Sweeney. "I can't say yet because it hasn't been officially released, and Marvel are very protective of their franchise." The Winter Soldier co-director Anthony Russo cleverly dodged a question in regards to the sequel exploring "dark" flashbacks. And with Peggy Carter still "active" in modern times, we'll likely see her in flashbacks, and/or modern times. And if modern times, we'll either see an older actress behind her portrayal or an aged Hayley Atwell, with the use of Hollywood makeup
