

Following the mess that was Batman and Robin, Batman Begins was obviously just what the franchise needed back in 2005. Providing a grounded take on the Dark Knight, it led to a trilogy which has since been hailed as one of the greatest of all-time, but that hasn't stopped it from getting the Honest Trailers treatment! While the video below has plenty of good things to say, it also doesn't shy away from the fact that Christopher Nolan and Christian Bale's Batman was something of a killer. The hero's decision to leave Ra's al Ghul to die in that train is one which fans have talked about nearly as much (well, maybe not) as Superman breaking General Zod's neck in Man of Steel, and yeah, I guess it technically was manslaughter! Anyway, check out this Honest trailer below and then feel free to let us know your thoughts on it in the comments section.
