

Hey gang Morty reporting once again with something I feel we need to have a chat about. The Christopher Nolan Batman films, and whether or not they are indeed realistic. I think the answer is sadly no after delving bellow the surface of his realism. I think it is very superficial and presents itself as real, but is as much a fantasy as any other super hero Flicks out there, but cutting its self short with its tone and villains using a masquerade of realism. I will be getting hate for this and frankly I am prepare for it, I will also be told I have plagiarized these notes from another site, and I have not. These notes were compiled by me and a few others purely out of our own observations. A trusted source has told me apparently there are more of these problems listed on other websites. I hope I can reach even one of
