

Fans were wondering when we'd finally get an official Logan movie still, and thanks to Empire that's exactly what we have here. Dispensing with the cryptic teases of the recent batch of black and white snaps, this image provides a proper look at Hugh Jackman as the aging mutant, with a handcuffed Laura/X-23 (Dafne Keane) in his arms. You'll notice that The Wolverine has left a trail of carnage behind him, so there's still a trace of the old berserker rage in there at least. Logan stars Hugh Jackman, Patrick Stewart, Richard E. Grant, Boyd Holbrook, Stephen Merchant, Dafne Keen, Eriq La Salle, Elise Neal, and Elizabeth Rodriguez. The final Wolverine movie is set to claw its way into theaters on March 3, 2017.
