

It's been a while since we've had an update on Alita: Battle Angel, but THR now reports that Jennifer Connelly (Hulk, Requiem for a Dream, A Beautiful Mind) has been added to the already very impressive cast of the Robert Rodriguez-directed sci-fi flick. Though no details on her character are provided, it is stated that she'll be playing "one of the villains". Any Alita fans care to venture a guess as to which one it could be? Production on Alita: Battle Angel is currently underway in Austin, though the project still hasn't been given an official release date. The film will feature Rosa Salazar in the lead role, with support from the likes of Jackie Earle Haley, Christoph Waltz, Mahershala Ali and Ed Skrein.
