

IGN has received publicity material for model/actress India Wadsworth that describes her role in The Dark Knight Rises as "The Warlord's Daughter." Of course the proper assumption from there is that India is playing Talia al Ghul, Ra's al Ghul's daughter (Liam Neeson). But when they looked at her official resume it said that her role is that of a "Mother." IGN has speculated that she could be Talia, or Talia's mother, or perhaps even Bane's mother. I tend to believe that she is playing the role of Talia al Ghul's mother and here is why. Let's start with the fact that two people have come forward and said that a young Talia al Ghul is in the movie. First we had a mother state that her daughter dropped out of contention for the role because it required the actress to shave her head. Then Joey King confirmed in an interview
