

Well, this one seems to have come out of nowhere. We had a vague rumor earlier this year that an Inhumans movie was in development at Marvel. However, it was from an unusual source, not typically known for breaking exclusive news and offered such vague details that we counseled you to take the news with salt at the ready. However, the venerable Entertainment Weekly has also stated that an Inhumans movie is in the works so I think we can save our grains of salt for another day. Just recently, I covered all the projects Marvel studios currently has in development and where the Marvel Cinematic Universe may go after the Avengers (Marvel Studios 2014 Plans. Who, What, And Just Cause....). However, the recent EW article on The Avengers , (which you can read here) listed a movie project that I didn't cover because there wasn't any
