

Officially little is known about the movie, Prometheus. What we do know is that Prometheus is a prequel to the Alien franchise, but the story will be more of a stand alone. Outside of that, we really don't know too much. But has all that changed today? I believe the answer is yes. I've read the leaked outline and it seems quite authentic to me. What do you think? Earth. Year 2058. Archaeological digs in Africa reveal alien artifacts that humans were genetically engineered by a advanced alien race (space jockeys). These "Alien Gods" also terraformed Earth in order to make it habitable for their human creations. Amongst finds are coordinates to the Alien God's home-world, to Paradise. Months later the Weyland Corp launch the spaceship PROMETHEUS and his crew, into deep space to make first contact. Thanks to faster than light travel a few years later the PROMETHEUS enters the
