

To say Jared Leto's take on The Joker has divided fans would be an understatement, but the biggest issue many seem to have is with his appearance. From the tattoos to the grill and his choice of clothes, it's clear the DC Films Universe's version of the Clown Prince of Crime isn't what most wanted to see. Are any of the alternate designs below an improvement though? Costume Graphic Illustrator Tina Charad has shared a new batch of images from her work on the movie, and as you can see, they provide an interesting glimpse at what might have been and the process they used to transform Leto. If and when The Joker does return, it's entirely possible that he'll have a new look. After all, his comic book counterpart is known for reinventing himself, so Warner Bros. could easily ditch what didn't work. There's been no mention of Leto showing up in The Batman, but if he's not included there, Birds of Prey
