

Things didn't end particularly well between Luke Cage and Jessica Jones when they last crossed paths, mostly because she put a shotgun to his head and pulled the trigger! Since then, Power Man has obviously found a new love interest in the form of Claire Temple, but the two heroes do seem to be getting on well in this first look at a reunion between the two on the New York set of The Defenders. We don't actually know whether or not this is their first meeting or a scene which takes place after they line-up with Daredevil and Iron Fist to form this superhero team. Either way, given their history on both television and in the comic books, seeing them together promises to be a lot of fun and highlight of this series. What do you think is happening here?
