

Joe Kelly is best known for his work on one of the most critically acclaimed runs of Deadpool back in 1997. It lasted for 33 issues and the writer has since written the character on several other occasions. Talking to MTV Splash Page recently, Kelly had this to say about the planned big screen adaptation featuring the Merc with a Mouth. "I've actually met with some of those guys over there and talked to them about the movie," he revealed. "From what I can tell, they're aware of the fan reaction to how he was played in 'Wolverine' and are working very hard to make sure that he's given his props. There's definitely elements of stuff from my run that's involved in the film. From what I've been told, I think it'll be awesome. Deadpool is a fantastic character, and if Ryan Reynolds still does him, that'd be really great." He added: "But
