

"Wow," is more than likely the first reaction you'll have after sitting down to watch Abraham Lincoln: Vampire Hunter. And no, it won't be the good kind. Instead, it will be something more akin to, "Wow, how can a movie which looked so much fun be so absolutely awful?" Regardless of the silly premise, there was no reason why the film from director Timur Bekmambetov couldn't at least be a bit of B-movie light relief. It's not. Seth Grahame-Smith's weak screenplay (he also wrote the novel the film is based on) isn't all bad, although it jumps around so often, you would be better off reading an actual history book if you're hoping to get to know Abraham Lincoln at all. While it's fair to say that no one was expecting anything near a historically accurate take on the 16th President of the United States, it could really be anyone wielding
