

I'm not a Judge Dredd fan. I've never read a comic book featuring the character and haven't even watched the awful looking 1995 film starring Sylvester Stallone. The 2000 AD Universe has never really appealed to me, and while I'm sure that I may be missing out on some great stuff, it's for this reason that I haven't exactly been counting down the days until the release of DREDD. Sure, it looked pretty good in the trailer and TV spots, but it's not the kind of film which is going to get me as excited as something like The Avengers! However, had I known just how good it was going to be, DREDD would have been right up there as one of my most anticipated of 2012. While the film is clearly restricted by a budget which is lower than usual for this type of film (it almost all takes place
