

In a week that saw quite a few negative - or negatively perceived - comments from various actors and directors about certain movies they worked on, probably the one to drum up the most controversy was Wally Pfister's slam on Joss Whedon's *The Avengers*. While participating in a Q&A last week at Ringling College of Art and Design, the *Dark Knight Rises* cinematographer incurred the wrath of many a fan-boy when he dissed the record breaking Marvel movie. "I thought *The Avengers* was an appalling film," he said, according to the *Huffington Post*. "They'd shoot from some odd angle and I'd think, why is the camera there? Oh, I see, because they spent half a million on the set and they have to show it off. It took me completely out of the movie. I was driven bonkers by that illogical form of storytelling." In fairness to old Wally, I think he
