

Five days remain until the worldwide release of Marvel's The Avengers assembly and, based on critics reviews and record-breaking box office results overseas, the superhero spectacle lives up to its five-year anticipation. It was during the third year, 2010, that Joss Whedon came on board as writer and director. And briefly looking back at that period with NY Daily News, he informed them of an original Avenger from the comics that was included in early drafts, but evidently didn't make the cut: Janet van Dyne aka The Wasp. Whedon will be the first to admit it almost didn't work. There was a version of the script, back when Johansson wasn't involved, that featured a female superhero named the Wasp. Whedon had to scrap that script, and was making changes to his final version even as the effects people were starting work on the 40-minute battle that closes the movie. "Trying to figure
